The entertainment industry and the occult -

"Dear God, I wonder can you save me? Illuminati want my mind soul and my body - secret society, trying to keep an eye on me"

~Jay Z - D'evils (circa 1996)

One RT = one more insight about the occult in Hollywood & music business.

Excellent now let's go back in time to early the 1980s.

A hot young singer named "Madonna" broke into the pop world was soon crowned the number 1 star in the music biz

Did she earn this by merit? Or by oath?

After her early hits such as "like a virgin" and "material girl" Madonna enjoyed multiple platinum albums year after year, global tours and all the bells and whistles that came with it. She even dated Tupac Shakur. He was a G very appealing man to most women I would imagine.

Tupac was also a MEGA popular star back in the early and mid-90s. His early music was very street and hard-hitting, but after he was sent to prison, he was made aware of certain information while inside, about a group named "The Illuminati" Some claim the FBI was behind this....

They may have had an agent inside the prison who was trying to influence Tupac to either knock him off centre or get him to join the cult, but Tupac was a good soul with a good heart. On his release from jail, he started using the term "Killuminati" in his songs

Tupac's music was powerful and he had a great influence over millions of people. Especially young Americans who looked up to him because he was "that guy" bit like Marvin Gaye back in the day. Age 25 Tupac was sadly gunned down in LA. His death is still shrouded in mystery.....

Correction It was Las Vegas he died not LA.

His death was subject to several conspiracies and many believe he actually faked his own death so he could space the limelight. The main reason for this was he used an allies "Makaveli" After the famous Niccolò Machiavelli

He was renowned for faking his own death, to fool his enemies so perhaps Tupac did the same. I don't believe this theory and I think he was executed because he had way too much influence (especially over black people) which is one thing the cult do not like.

They seek to keep blacks in a state of victimhood and preoccupied with phoney racism issues which keep them down and in a lower vibrational energy level. For some reason they fear black empowerment and enlightenment, sadly many black artists have carried this agenda since Tupac.

Rap music plays a huge role and has lead to several million blacks being jailed for drug dealing/gang violence etc. It's very sad how they were brainwashed by vindictive rich men who own the big labels.

Now let's move on to another area.

We will go back in time again to the mid-1960s. A man named Jim Morrison was the lead singer of a band called "The Doors" Very popular and very catchy music.

Note the one "eye" on the album cover.

Jim Morrison was very aware of the occult forces behind the music industry and he once ranted about it at a live show in Miami.

Listen to this now, and think about he was referring to?

He was very awake way back.....

Music is a very powerful tool to program people, maybe the best method of all. Illuminati insider "John Todd" Once claimed all the major recording artists have sold their soul to the devil to get into the position. There is a lot of information here.

Popular pop star Katy Perry admitted she sold her soul to the devil in this interview. She claimed she wanted to be a gospel signer but it never worked out, so she went a different path.

The music industry is riddled with occult symbols and sell out artists who create music, which keeps people in lower vibrational states. Keisha is a good example of manufactured Illuminati pop princess. Her image and music is vile.

Her videos often feature several satanic symbols such as pentagrams and upside down crosses. Her music has the general theme which promotes being a shallow, easy and trashy women, who has no higher purpose other than getting “lit” at parties and being selfish.

Bob Dylan is very well known singer/songwriter. In all honesty much of his music is decent and well made with good intentions. But he is another big star who has mentioned the unseen forces who control the industry....

In this interview, Dylan described the end of the “deal” he has to uphold with the “Chief commander” of the world which we do not see. Are you getting it yet?

Now then, let's move on to Hollywood.

Its common knowledge the Devil lives in the city of LA.

This is the home of the big movies where all the wannabe stars go to make it BIG in show business.

But the price for those big roles in the blockbuster movies is rather costly...

Illuminati symbolism is EVERYWHERE in several movies, let me display some notable examples for you. It's very, very common.

Sean Connery in "The Man Who Could Be King"

Lucifer was an angel, and he was the angel of entertainment which we can now call music and movies. The Devil runs Hollywood and the music industry. Because its a very effective way to condition and program the masses who consume the entertainment.

So bear this in mind, whenever you are listening to or watching your favourite performers. Many of them will have sworn allegiance to Lucifer before they landed the deal or lucrative contract. Ask [@MarkDice](#) he was asked to do this to get a big national TV show, but he declined.

Amy Winehouse -highly popular singer from the UK. Died at 27. Here she is during a Jonathon Ross Interview saying "They tried to mould me into a triangle shape and I said no" 3:34 in check it out.
